

CERTAIN RESULTS.

Many a Barre Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Barre. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

C. N. Benedict, Eastern avenue, Barre, Vt., says: "The great merit of Doan's Kidney Pills has been so amply proven to me that I can give them my strongest endorsement. Four or five years ago, I was injured, and after that I was troubled a great deal by pains across my loins and kidneys. Stopping or lifting caused me distress, and I was annoyed a great deal by a retention of the kidney secretions. A friend, knowing how severely I was troubled, advised me to try Doan's Kidney Pills, and I did so, procuring my supply at Drown's drug store. I received the most gratifying results. My back and kidneys were strengthened and my health improved wonderfully. Since then, whenever I have felt out of sorts, I have taken Doan's Kidney Pills, and they have never failed to give me relief."

The classes in domestic science, which are to be held in the basement of the Kellogg-Hubbard library every Saturday morning, will commence next Saturday. This scheme is being put forward by the domestic department of the Woman's club and is primarily for the benefit of the girls in the senior and junior classes of the high school. There are to be two two-hour periods each Saturday forenoon, one for the seniors and the other for the juniors. It is probable that different instructors will have charge of the classes, but the first session will be in charge of Miss Ella C. Pine of the university of Vermont. Saturday afternoons, the instructor will meet the domestic department of the Woman's club.

At a meeting of the school board last evening, F. J. Browncombe, superintendent of schools, announced that he was not a candidate for re-election. This came as a surprise to the board, who had no idea that Mr. Browncombe intended leaving. He has made no definite plans as yet, but probably will return to the West, from where he came to Montpelier seven years ago. During that time he has been indefatigable in his work for the good of the schools, striving to develop character, as well as scholarship, and his methods have been largely copied by other superintendents, letters being frequently received from newspapers, superintendents and school boards regarding the work of the Montpelier schools. During his seven years' work here, he has received many flattering offers to go elsewhere, but preferred to remain here until some of the things which were then but commenced might be brought to completion. Besides being an educator, Mr. Browncombe is also an author of considerable reputation, having not only written educational books, but numerous plays, which the schools have produced from time to time. He is a member of the Masons, Odd Fellows, Knights of Pythias, Elks, the Club and Bethany church. In these, as well as the educational and social life of the community he will be greatly missed.

A WOMAN EVANGELIST.

Miss Eleanor K. Edwards Coming to the Baptist Church of Websterville for a Two Weeks' Campaign.

Beginning with Sunday evening, January 8, and continuing for two weeks, special evangelistic services will be held at the Baptist church of Websterville. There will be meetings each week evening, except Saturday, the hour being 7 o'clock. The church has been planning for the services, and for several weeks past special meetings for prayer have been held in the homes of the members.

Miss Edwards comes highly recommended, having been in the work nearly all the time for the past fifteen years, and has the unqualified endorsement of the New England Evangelistic association. Immediately following her conversion at the age of nineteen and while en-

gaged in office work in the city of Boston, Miss Edwards devoted much of her spare time for several years to Christian work, and then was called to the work of evangelism. She entered the Moody Bible training school at Northfield, Mass., in January, 1891, and remained there for four months. During the summer of the same year, she served as church missionary for the Boston church, and in the fall entered the Bible training school in Chicago. In this institution she studied for nearly two years, leaving in the spring of 1893 because of the illness and death of her mother. Soon after this she accepted a position with the Congregational Home Missionary society in New Hampshire. This work was continued for a few months only, enabling her in November to go to New York and spend a school year in the New York Bible training college. For the next few years she devoted her time to evangelistic work, and in October, 1898, took a special course at the Gordon missionary training school of Boston, at the same time assisting one of the city pastors in general missionary work.

Miss Edwards has spent nearly four years in the West and has worked as state evangelist for the Baptist convention in Maine three years, resigning her position at the latter place to enter the Columbia college of expression in Chicago last fall. During the past summer she supplied churches in the state of Maine and did general evangelistic work. The pastor, Robert L. Caster, and the members of the Baptist church of Websterville believe that in Miss Edwards they have secured an evangelist of experience and consecration and earnestly invite the public to give her a hearing.

Clergyman's Son Cured of Tuberculosis

To neglect a cold, bronchitis, lung trouble or Consumption is dangerous. We all know how prone people are to deny they have a cold, or a cough, or a chest trouble, and the sufferer is filled with bright hopes of improvement. Call consumption by its own dread name—Tuberculosis—take Eckman's Alternative, because it is effective in Tuberculosis. No one need doubt about it—there is plenty of evidence from live witnesses.

Gentlemen: "Prior to Feb. 1904, I was located in Rochester, N. Y., suffering with LaGrippe, which developed into Tuberculosis. My physician gave me one month to live. I was having terrible night sweats and mid-day chills and losing flesh rapidly, having gone from 165 lbs. to 125 lbs. in three months. I then took Eckman's Alternative, because it is effective in Tuberculosis. No one need doubt about it—there is plenty of evidence from live witnesses.
